A sweet journey around the world

LET'S EXPLORE THE VARIETY AND TASTES OF THE WORLD TOGETHER

It is my pleasure to announce, that our entire team at Sweet Delight has reached the point, where we now deliver our products to 30 countries worldwide. This is, of course, meticulous work requiring us to understand each country, its peoples needs and customs, habits and desires. This understanding marks the beginning of our journey to success.

Through this exploration, we gain inspiration every day for further development, discovering new trends in the world, and learning about the society itself. This research and work in various corners of the world are strong foundations for Sweet Delight's future dynamic growth, building brand awareness of our DORTIE'S product brand and for overall prosperity.

Join us in discovering flavours, understanding the quality of raw materials, and enjoying our products. Our sales team is delighted to guide you through our world of cakes and desserts.

It has been our great honour stand by your side for 15 years, be your long-term partner, and create the future of sweet pleasure together.

Thank you for this amazing journey around the world.

Michal Freiberg, CEO

Sweet life

It will be almost 15 delicious years since Sweet Delight was founded.

You find nothing but the best in our cakes. We rely on our selection of pure and authentic ingredients with all the tastes of the world. We only cooperate with reliable suppliers offering high quality and GMO free ingredients. Only barn eggs, certified palm oil, pure whipped cream. Plus, we never add any preservatives or artificial ingredients to our cakes.

For a great experience and product quality we use gentle flash freezing technology.

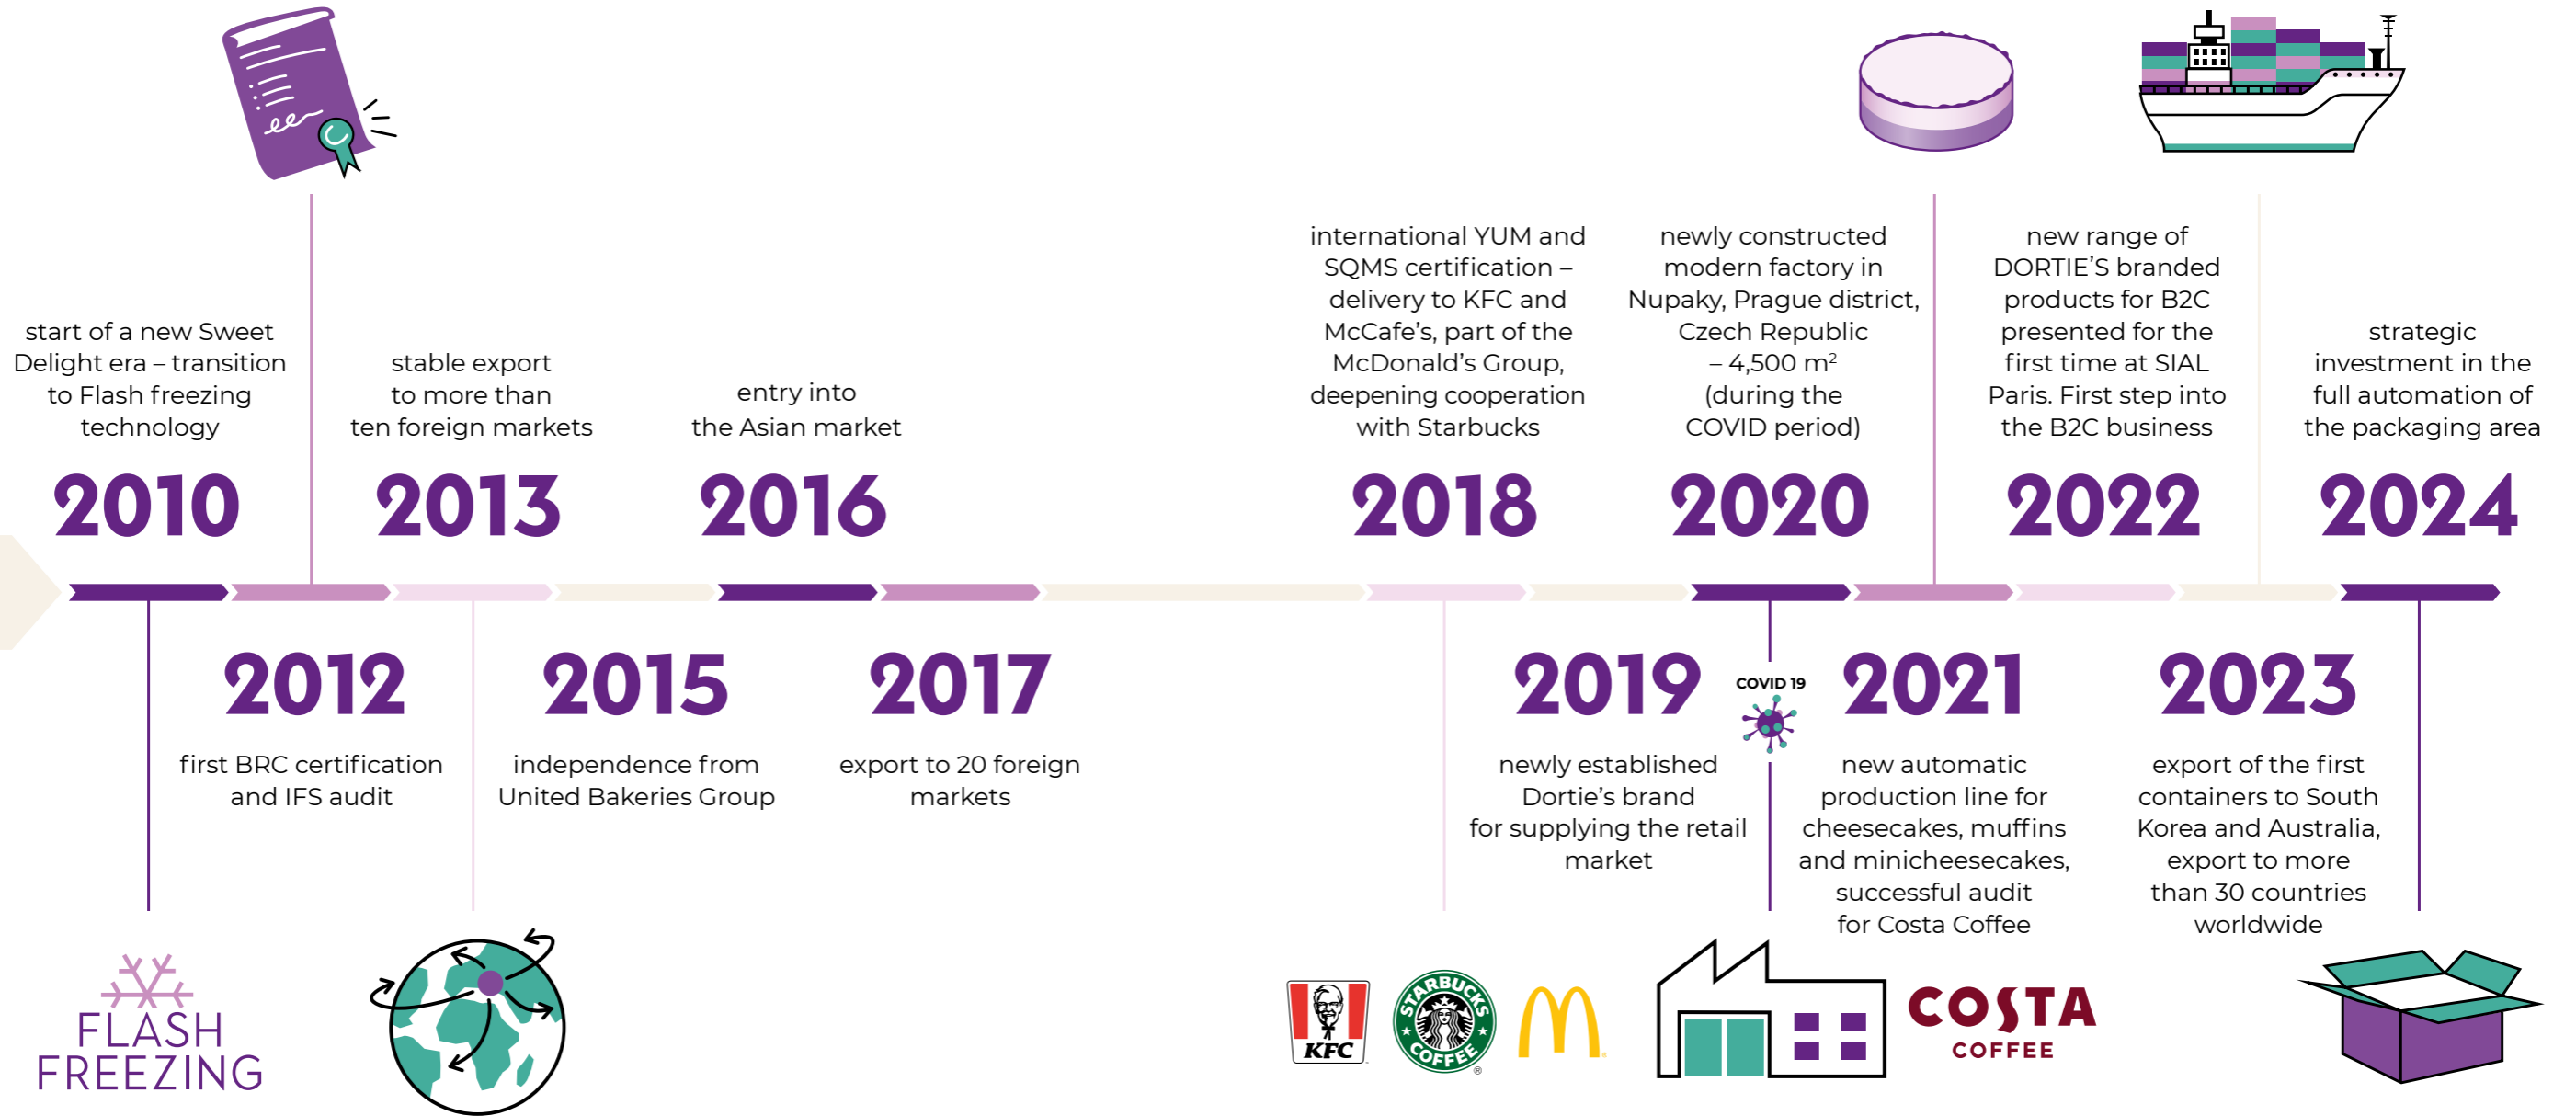

Thanks to this, we can deliver our cakes in the most natural form, within which the taste and design are perfectly protected and maintain their original state. And we go even further - the perfection of every cake is confirmed by a final X-ray test.

Our cakes are made with love, from person to person, by confectionery chefs who are absolutely obsessed with following trends. We are constantly improving original recipes on one hand, and experimenting with different ingredients, tastes, forms and decorations on the other. All of this in order to bring you unique cakes and pies that will not taste anywhere else and make your sweet dreams real.

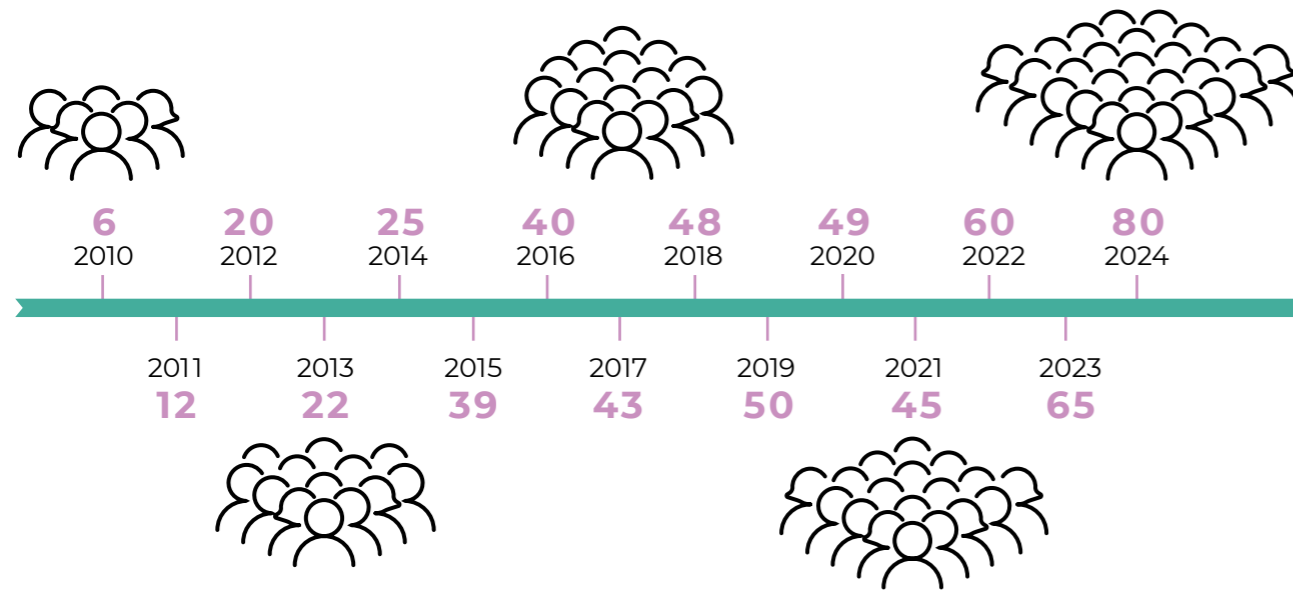

Sweet perfection is our mission ●
